

TENA Comfort Pants

TENA Comfort Pants are made to keep the incontinence pad wearer comfortable and secure all the time. They are made from lightweight, soft, and breathable materials allowing air to come into contact with the skin, keeping them cool even in hot weather, and helping them prevent rash and irritations from sweat.

The pants are also designed with soft, seamless elastic edges, eliminating the potential pressure points and enhancing wearer comfort even for long hours of wearing.

With TENA Comfort Pants, you can feel confident that you're taking the necessary steps to maintain your privacy and stay leakage-free.

They are affordable and available in three sizes so you can choose the right fit you need. Plus, they are colour-coded based on sizes on the waistline, allowing easy recognition and appropriate selection.
